

# Mobile Health Spot

## What is Mobile Health Spot?

Mobile Health Spot is a special mobile healthcare service that Molina Healthcare provides to its members.

**Our goal:** To help break down the barriers to healthcare for members by making it more accessible and comfortable.

**How we do it:** Our team of Nurse Practitioners will meet members in a one-on-one setting within their own neighborhood or home to educate them on their overall health and address any concerns before they progress. Members are also offered an incentive to help increase attendance.

## Services Provided:

Molina's clinical team provides services such as:

-  Comprehensive Diabetic and Annual Exams
-  Dental Screenings for adults and children provided by Health Plex
-  Postpartum education and screening
-  Well child visits (screenings and assessments)

(Molina will handle the scheduling of appointments and make accommodations for walk-ins)

## Where we do it:

Molina Healthcare partners with community based organizations and municipal facilities to administer quality healthcare. We serve communities throughout the Upstate and Southern Tier regions of New York and treat everyone like family, making sure members get the care they need, close to home.

## For more information:

Please contact our **Community Engagement Team at 315-928-4523** for more information on how to participate and what services are offered.
